

At Gilded Mirrors & Glass LLC, we bring over 60 years of experience manufacturing high-quality glass and mirror products across the United States. Our 85,000-square-foot facility in Maryville, Tennessee—just south of Knoxville—serves as the hub of our operations, featuring advanced fabrication equipment and streamlined production processes.

Using the latest CNC technology, we produce custom glass and mirror solutions with precise cutting, beveling, edging, and grooving to meet exact specifications. Our products support a wide range of industries, including furniture, construction, retail, manufactured housing, and picture framing.

Gilded Mirrors & Glass delivers consistent quality, craftsmanship, and reliability—where tradition meets innovation.

**BABAA Certified**

Gilded Mirrors & Glass LLC is committed to delivering exceptional service, premium-quality products, and competitive pricing to our customers. To support this commitment, we continuously invest in advanced equipment and modern technology, allowing us to meet evolving demands with consistency and attention to detail.

One Reflection at a Time”*

**Quality Mirrors & Glass**

## **Custom Glass & Mirror Solutions Crafted to Your Vision**

We specialize in crafting high-quality glass and mirror products tailored to meet the unique needs of residential, commercial, and design projects. With expert fabrication and attention to detail, we deliver precision and performance you can rely on.

Our Capabilities Include:

- Mirror & Glass in Clear
- Custom Sizes Available
- Glass Thickness Range: " (2.5mm) to 3/8" (10mm)  
(See our Product Specification Schedule for complete details)

We proudly use raw materials and float glass exclusively from trusted domestic suppliers ensuring consistent quality and a dependable supply chain.

## **Clean-Cut Edges—Simple, Smart, and Cost-Effective**

- Raw, unpolished edge finish
- Edges remain in natural state after cutting
- Ideal for mirrors and glass that will be framed or enclosed
- Practical solution for concealed or non-exposed applications
- Cost-effective option without sacrificing functionality
- Supports efficient installation and behind-the-scenes use

## **Precision Cutting for Custom Designs**

- Advanced CNC (computer-controlled) cutting technology
- Produces precise, clean cuts for unique shapes and patterns
- Supports non-standard and custom sizes
- Hand-finished edges for smooth, consistent quality
- Ensures accuracy and uniform edge detail
- Scrap glass is collected and recycled
- Supports environmentally responsible manufacturing practices

## **Seamed Edges — Safe, Smooth, and Efficient**

- Lightly sanded edge finish
- Removes sharpness from straight and patterned cuts
- Improves safety during handling and installation
- Ideal for framed mirrors and concealed applications
- Cost-effective option for high-volume projects
- Designed for speed, reliability, and efficiency

## **Polished Pencil Edges — Soft Curves, Sleek Finish**

- Smooth, rounded edge profile
- Polished finish for a refined appearance
- Enhances both safety and aesthetics
- Ideal for exposed edges and visible applications
- Perfect for wall-mounted mirrors, vanities, and dressers
- Delivers a clean, finished look from every angle

## **Beveled Edges — Timeless Detail, Elegant Depth**

- Creates a gently angled edge around the glass or mirror
- Enhances depth and light reflection
- Adds a refined, sophisticated finish
- Available in widths from .5" to 1"
- Ideal for straight-line cuts
- Popular for frameless wall mirrors, vanities, and statement pieces
- Delivers a polished, upscale appearance to any space

## **Safety Backing — Extra Protection Where It Counts**

- CAT I & CAT II tape backing adds an essential safety layer
- Helps hold glass fragments together if breakage occurs
- Designed for commercial and public installations
- Safety film applied to the back of the mirror
- Meets ANSI Z97.1 safety standards
- Ideal for schools, gyms, restrooms, and high-traffic areas
- Enhances safety in environments where protection is critical
